- Understands current employer sponsored healthcare market from both an employer and employee perspective.
- Understands how health vendors such as insurance companies, PBMs, and niche providers such as warp networks, fertility networks, medical managers, etc. work in US;
- Understands employer sponsored compliance perspectives, e.g., Affordable Care Act, No Surprises Act, etc;
- Ability to work on multiple projects and thrive in a fast-paced environment;
- Ability to manager projects to produce high-quality results within budget;
- Understands how individual claims are processed;
- Enjoys analyzing the results and digging into the numbers for accuracy (hands-on).

Required Skills and Competencies:

- Must be a Fellow of the Society of Actuaries (FSA);
- Must have experience managing all aspects of multiemployer, private, and/or public sector active health and welfare plans (e.g., cash flow projections, benefit change pricing, business partner selection and negotiations, etc.);
- Must have experience with retiree medical plan actuarial valuations (e.g., required accounting reports, liability determination, funding analysis, etc.);
- Must have experience thoroughly reviewing actuarial results in detail and enjoy being involved at multiple levels of the employer sponsored health care consulting work;
- Must possess strong oral and written communication skills, i.e., ability to communicate complex actuarial issues clearly and concisely to a non-technical audience;
- Must be able to lead client and internal client team meetings;

- Must be able to manage several complex projects and clients: i.e., manage deadlines and develop methodologies that work within deadlines and client-set budgets;
- Must be able to maintain client relationships and manage client contract and invoicing processes;
- Excels at managing personal workflow;
- Oversees the work of client team staff as well as mentor and train staff;
- Communicates and works cooperatively with other senior consultants;
- Must have ability to reach out to other experts and get work peer reviewed prior to release.

Additional Requirements:

- Expertise in Microsoft Office products including Excel, Word, and PowerPoint
- Expertise in Access, SQL, and/or JAVA a plus
- Experience using Business Intelligence programs (ex. Power BI, Tableau) a plus
- Claims processing expertise a plus
- Business development skills a plus
- Client travel required

Education and Experience:

- Bachelor’s Degree from a four-year college or university is required
- At least ten years of health actuarial consulting experience

Travel: Employee will be required to travel to client meetings as well as internal Cheiron meetings. Frequency of travel may vary based on client assignments.
